Dear Clinician

Do you want to enhance your ophthalmic services? Are you considering purchasing an anterior segment topographer?

If an anterior segment topographer is on your list of items for consideration, then we would like to offer you a FREE 7 day no obligation trial of the Oculus Pentacam, the gold standard in anterior segment imaging.

The Oculus Pentacam uses a rotating Scheimpflug camera which in a single operation captures and analyses Scheimpflug images of the anterior eye segment. This provides you with precise diagnostic data on the entire anterior eye segment. The Pentacam is available in three models to meet your individual needs; HR, Classic and Basic.

For more information visit: www.pentacam.com

FREE TRIAL!

To request your free trial, or to simply find out more, don't hesitate, call or email us today on:
