WHY WOULD  
YOU CONSIDER  
ANYTHING ELSE?

## WHY CONSIDER THE OCULUS PENTACAM?

### *BECAUSE*

The Pentacam from Oculus provides the most comprehensive keratoconus screening available

### *BECAUSE*

Accurate IOL calculations can be made for patients post refractive surgery, even if pre-op data is unavailable

### *BECAUSE*

The Pentacam offers incredibly precise measurements and analysis at the centre of the cornea

### *BECAUSE*

Pentacam nucleus staging now means that the Scheimpflug image of the cataract can be graded automatically using a quantitative scale

### *BECAUSE*

The software is fully networkable, thus allowing patient data to be reviewed in any room

### *BECAUSE*

It may increase the number of patients deemed suitable for LASIK treatment
